University Degree in Naval Architecture & Marine Engineering;

PROFESSIONAL EXPERIENCE

7/2022 – 3/2025: **ABS Consulting**, Athens
Marine Specialist

Management of projects that take place or involve parties located in EMEA. Such projects widely range in international marine domain, including newbuilding/conversion projects and vessel condition surveys (standard or special vessels (FSRU etc.)), Risk & Safety analysis and development of Safety Management Systems, witnessing of marine equipment tests and their compliance with special regulations, shipyards audits. Projects lasting from few days/weeks (vessel condition surveys etc.) to years (Lender Technical Advisor in FSRU-Alexandroupolis project, third party in newbuilding projects etc.).

10/2005 – 12/2021: **GEORGE MOUNDREAS & COMPANY SA**, Piraeus
Shipbroker, Sales Department

Have always been working in the Newbuilding Section, with many trips to Far East and Europe. Have developed Newbuilding projects (standard and special projects) mainly with Far Eastern and European shipyards, on the basis of a wide range of ship types. Have been closely following up recent technical and commercial trends in international shipping and investigating into their applications in NB projects. Have successfully been involved in Sales & Purchase market for some years.

10/2004 - 03/2005: **SUN ENTERPRISES Ltd.**, Athens
Assistant Site Manager in vessel's newbuilding project

Member of the site team in charge of the construction of the last unit of a series ("Amazon" series) of abt.73,000 DWT size Oil Product tankers, in Hyundai Heavy Industries, in Ulsan, South Korea. Involved mainly in painting inspections as well as in machinery ones, in the final stages. Also participated in vessel's sea trials.

09/2002 - 08/2003: **P&C Consultants Ltd.**, Piraeus
Associate Naval Architect in a Technical Bureau

Involved in ship-repair and newbuilding projects, FEM analysis & applications to IACS and International Marine Rules
